

Differential Equations and Applications to Biology 2025

A conference in the memory of
Pierre Magal

June 16 – 20, 2025,
University Le Havre Normandy, France

<https://www.quentin.griette.fr/2025/DEAB/>

The conference Differential Equations and Applications to Biology will take place at the University of Le Havre Normandy from Monday, June 16 to Friday, June 20, 2025. This meeting is organized in the memory of our friend and colleague Pierre Magal. The goal of this international conference is to bring together leading researchers from differential equations, dynamical systems, and mathematical biology to communicate with each other about their current work and to remember Pierre's contribution in related areas.

The event will take place at the main building of the UFR ST building.

- **Plenary talks** and **Parallel session A** in **Amphithéâtre LESUEUR**
- **Parallel session B** in **Amphithéâtre MAZELINE**
- **Parallel session C** in **Amphithéâtre NORMAND**

Plenary Speakers:

- Jacques Demongeot, University of Grenobles Alpes, France
- Arnaud Ducrot, University of Le Havre Normandy, France
- Raluca Eftimie, University of Besançon, France
- Luca Gerardo-Giorda, Johannes Kepler University Linz, Austria
- Xiaoying Maggie Han, Auburn University, USA
- Shigui Ruan, University of Miami, USA
- Glenn Webb, Vanderbilt University, USA
- Jianhong Wu, York University, Canada

Organizing Committee: Arnaud Ducrot, Quentin Griette, David Manceau, Alain Miranville, and Shigui Ruan.
